STANFORD'S LEADING ATLASES.

Prospectus, giving contents of each, on application.

Folio edition.

Dedicated by permission to her MAJESTY the QUEEN.

Second Issue, revised and enlarged. Imperial folio, half-morocco extra, price 12*l.*; morocco, 15*l.* Size, when shut, 16 inches by 23 inches.

"Whereas Mr. Arrowsmith exhausted his material in fifty maps, Mr. Stanford has been able to cover ninety sheets. True, most of these additions are maps of British possessions at home and abroad, and this is the distinctive feature of the folio London Atlas. The British Islands and the British possessions are treated with unusual prominence and detail. But the atlas is mainly valuable for its wealth of Maps of the British Empire all over the world, and in this respect it is probably unsurpassed."—*The Times*.
